PERSONAL PROJECTS

ETwist

<https://github.com/KillerBunny12/Etwist>

Twitter-esque Social Webpage made in Laravel and ReactJS. The main page lets the user make posts, as well as like and comment other users posts.

MPGC

https://github.com/BrandonCastro932/MPGC_APP

Android app that lets you organize your game collection virtually with your phone. The app connects to a web api that host a variety of titles, music, and screenshots.

Simple Sonic Platformer Demo

<https://github.com/KillerBunny12/SimpleSonicPlatformerDemo>

A Platformer game demo made in Unity, the goal is to reach the end of the stage while collecting rings and defeating enemies, the game is both compatible with PC and Android.
